## **PREPARING DIGITALLEARNING MATERIAL**

**<https://onlinedigischools.wixsite.com/sitem>**

***İSPARTA GAZİ SOCIAL SCIENCES HIGH  
SCHOOL***

***We must be careful while preparing the digital learning materials . We should care about the following topics;***

- Target analysis***
- characteristics of learners and learning***
- content analysis and design***
- integration into digital tools***
- using them in distance education***

**Our New Life in Noxious Epidemic**

**2020-1-ES01-KA226-SCH-095196**

***We should decide the aims and objectives of our subjects clearly .We also should take the time into consideration. Next, we must identify learning activities that are compatible with the learning aims and objectives. So we can take the students into the centre of learning. While deciding teaching digital materials, we should decide them carefully in accordance with the purpose of teaching.***

**Our New Life in Noxious Epidemic**

**2020-1-ES01-KA226-SCH-095196**

## ***Decided materials should***

- be simple and understandable***
- be related to aims and objectives of the subjects***
- be updatable and accessible to everyone***
- be suitable for the level of the student***
- provide students with the opportunity to practice and practice***
- include the real life as much as possible***
- the decided text, visual and audio elements should be chosen in accordance with the characteristics of the students and should be parallel to real life.***
- visual materials should emphasize the importance of the subject***
